The mission of the CNPS Rare Plant Program is to develop current, accurate information on the distribution, ecology, and conservation status of California's rare and endangered plants, and to use this information to promote science-based plant conservation in California. We encourage anyone who has knowledge about native plants, particularly rare plants, to contribute their comments/data as a Rare Plant Status Reviewer via the Rare Plant Status Review Forum.

Please exhibit sufficient botanical experience in at least two of the five major categories below in order to join a Regional Plant Status Review Group and/or become a member of the Rare Plant Status Review Forum. If you feel you might qualify as a reviewer, but are not able to adequately exhibit your qualifications on this form, please contact Aaron E. Sims (asims@cnps.org) for more information on how to become involved.
