

Rare Plant Slide Collection

The Rare Plant Slide Collection contains approximately 2700 slides of over 640 taxa of rare California plants. The slides have been graciously donated over the years by professional and amateur photographers and botanists. Refer to the lists below (sorted alphabetically) for details on our holdings.

General Loan Agreement Terms

CNPS loans slide materials out to support rare plant education and conservation. We normally check out slides for a two month period. Longer loans can be arranged if necessary. Slides can be reproduced for personal use unless copyrighted by the photographer; they must be left in their original mounts. Both the photographer (if known) and CNPS must be acknowledged if the slides are to be published; please contact CNPS prior to reproduction for additional requirements and limitations. Please use extra caution when working, handling, and storing these slides. Contact the Rare Plant Program for loan information, at 916/327-0714 or via email.

The Slide Collection needs donations!

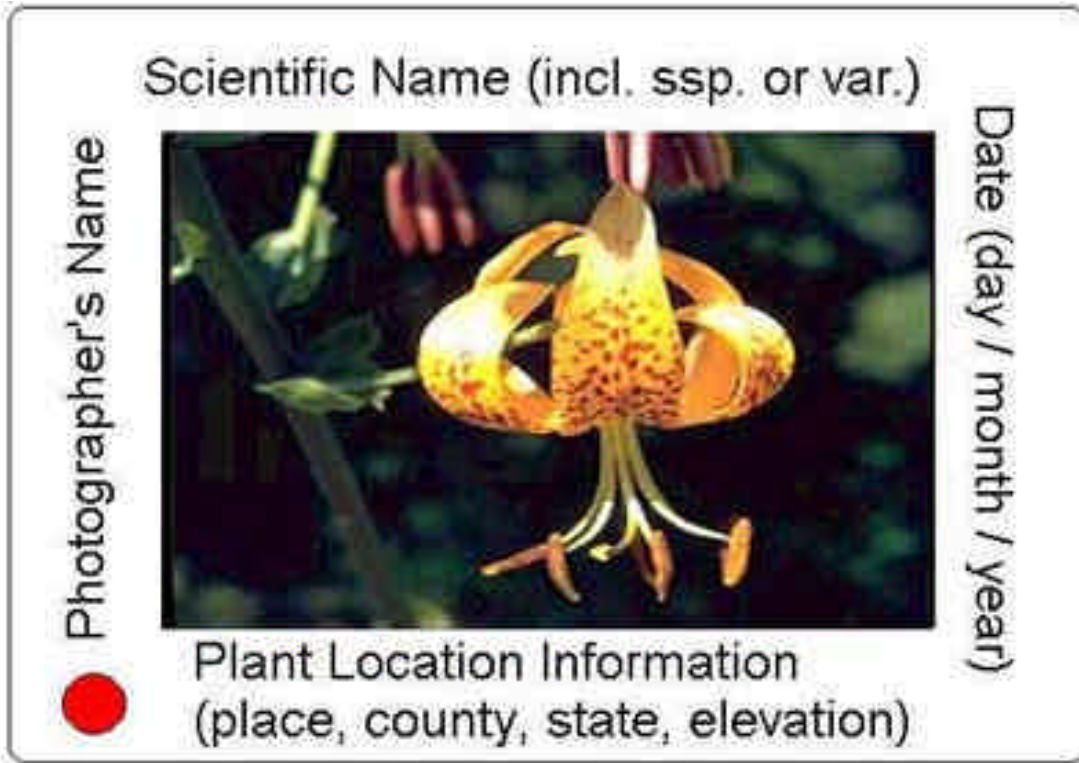

Only about one third of the rare plant taxa currently tracked by the Rare Plant Program have slide materials in the Collection. If you have high quality slides of rare plants, please consider donating originals or high-quality copies to the Collection. Refer to the lists above (sorted alphabetically) for details.

Donation Guidelines

The CNPS Rare Plant Slide Collection is used to "illustrate" the value of protecting California's rare plants. When you donate slides to the CNPS collection, please label the slides clearly as illustrated and discussed below. Providing all the information in a uniform pattern helps us manage the collection and helps others to use your slides more accurately. Please take the time to ensure the value of your gift.

All slides donated to CNPS are considered a gift to CNPS for possible inclusion into the collection. Although they should be tax deductible, CNPS can not estimate or set a value to your donation. Donated slides become the property of CNPS and can not be returned once included in the collection. CNPS can not accept use limitations placed on donated slides. Practical time considerations prohibit individual notification to the photographer when the slides are used. CNPS will make every effort to require users to give photographic credits whenever your slide is duplicated or printed, as follows: "(your name) / California Native Plant Society".

1. Print the information clearly and carefully, with waterproof, fine-point black pen.
2. Follow the labeling pattern illustrated below.
3. Label only on one side - the side visible when hand viewing the correctly-oriented slide.
4. Place a red dot in the lower, left-hand corner (when hand viewing the correctly-oriented slide). This standard method will indicate proper orientation during use.
5. With your donation please include a note with your name, address, and phone number. We may need to contact you directly if we have questions about your slides.
6. Would you like slides returned to you if we decide we do not to use them? Please let us know when you donate.

Scientific name: Full scientific name of plant taxon, including subspecies or variety if applicable. This provides subject identification, and slides are managed using this name.

Photographer's Name: We require photographic credit be given if the slide is copied or printed by the borrower, and for maintaining our records of your donation. We require photographic credit be given if the slide is copied or printed by the borrower, and for maintaining our records of your donation.

Date of Photograph: Day, month, and year the photograph was taken. This improves the slide's value as a scientific record of the plant's existence and condition. The photo developer dates on the slide are misleading. Day, month, and year the photograph was taken. This improves the slide's value as a scientific record of the plant's existence and condition. The photo developer dates on the slide are misleading.

Location: Be as specific as possible, including nearest named place or area, county, state, and elevation.

SLIDES AVAILABLE	
Scientific Name	Common Name
<i>Abies amabilis</i>	Pacific silver fir
<i>Abies lasiocarpa</i> var. <i>lasiocarpa</i>	subalpine fir
<i>Abronia alpina</i>	Ramshaw Meadows abronia
<i>Abronia maritima</i>	red sand-verbena
<i>Acanthomintha duttonii</i>	San Mateo thorn-mint
<i>Acanthomintha ilicifolia</i>	San Diego thorn-mint
<i>Acanthomintha lanceolata</i>	Santa Clara thorn-mint
<i>Agave shawii</i>	Shaw's agave
<i>Agave utahensis</i>	Utah agave
<i>Ageratina shastensis</i>	Shasta ageratina
<i>Agrostis blasdalei</i>	Blasdale's bent grass
<i>Allium hickmanii</i>	Hickman's onion

SLIDES AVAILABLE

<i>Allium hoffmanii</i>	Beegum onion
<i>Allium munzii</i>	Munz's onion
<i>Allium sanbornii</i> var. <i>congdonii</i>	Congdon's onion
<i>Allium sanbornii</i> var. <i>sanbornii</i>	Sanborn's onion
<i>Allium shevockii</i>	Spanish Needle onion
<i>Allium siskiyouense</i>	Siskiyou onion
<i>Allium yosemitense</i>	Yosemite onion
<i>Alopecurus aequalis</i> var. <i>sonomensis</i>	Sonoma alopecurus
<i>Ambrosia chenopodiifolia</i>	San Diego bur-sage
<i>Amsinckia grandiflora</i>	large-flowered fiddleneck
<i>Androstaphium breviflorum</i>	small-flowered androstaphium
<i>Angelica callii</i>	Call's angelica
<i>Antennaria flagellaris</i>	stoloniferous pussytoes
<i>Antirrhinum virga</i>	tall snapdragon
<i>Aphanisma blitoides</i>	aphanisma
<i>Arabis blepharophylla</i>	coast rock cress
<i>Arabis constancei</i>	Constance's rock cress
<i>Arabis koehleri</i> var. <i>stipitata</i>	Koehler's stipitate rock cress
<i>Arabis macdonaldiana</i>	McDonald's rock cress
<i>Arabis modesta</i>	modest rock cress
<i>Arabis parishii</i>	Parish's rock cress
<i>Arabis pygmaea</i>	Tulare County rock cress
<i>Arabis serpentinicola</i>	Preston Peak rock cress
<i>Arabis shockleyi</i>	Shockley's rock cress
<i>Arabis tiehmii</i>	Tiehm's rock cress
<i>Arctomecon merriamii</i>	white bear poppy
<i>Arctostaphylos auriculata</i>	Mt. Diablo manzanita
<i>Arctostaphylos bakeri</i> ssp. <i>bakeri</i>	Baker's manzanita
<i>Arctostaphylos cruzensis</i>	Arroyo de la Cruz manzanita
<i>Arctostaphylos densiflora</i>	Vine Hill manzanita
<i>Arctostaphylos edmundsii</i>	Little Sur manzanita
<i>Arctostaphylos glutinosa</i>	Schreiber's manzanita
<i>Arctostaphylos hookeri</i> ssp. <i>franciscana</i>	Franciscan manzanita
<i>Arctostaphylos hookeri</i> ssp. <i>hearstiorum</i>	Hearst's manzanita
<i>Arctostaphylos hookeri</i> ssp. <i>hookeri</i>	Hooker's manzanita
<i>Arctostaphylos hookeri</i> ssp. <i>ravenii</i>	Presidio manzanita
<i>Arctostaphylos imbricata</i>	San Bruno Mountain manzanita
<i>Arctostaphylos luciana</i>	Santa Lucia manzanita
<i>Arctostaphylos morroensis</i>	Morro manzanita
<i>Arctostaphylos myrtifolia</i>	lone manzanita
<i>Arctostaphylos nissenana</i>	Nissenan manzanita
<i>Arctostaphylos pallida</i>	pallid manzanita
<i>Arctostaphylos pechoensis</i>	Pecho manzanita
<i>Arctostaphylos pilosula</i>	Santa Margarita manzanita
<i>Arctostaphylos pumila</i>	sandmat manzanita
<i>Arctostaphylos rudis</i>	sand mesa manzanita
<i>Arctostaphylos silvicola</i>	Bonny Doon manzanita
<i>Arctostaphylos virgata</i>	Marin manzanita
