

## Register of California Certified Botanists

Last updated: 15 December 2022

The names below indicate those individuals that have successfully demonstrated the depth and breadth of knowledge about the California flora and numerous aspects of what is needed to be known by the field and consulting botanist that works in the consulting profession in California. Each of these individuals has passed three examinations to meet the minimum qualifications as a Certified Associate Field Botanist or Certified Field Botanist. In addition, those that successfully passed the consulting botanist exam (as well as the three field botanist exams) meet the minimum qualifications as a Certified Consulting Botanist. Each of them have also signed the Botanist Code of Ethics and committed to abide by this code.

While the California Native Plant Society (CNPS), Board of Certification certifies these individuals as qualified to be certified and have agreed to follow minimum professional standards, CNPS does not endorse any individual by providing their contact information.
